

Email Receipt

On Self-Checkout Stations

This new feature will allow our patrons the option to email a digital version of the due date slip instead of a printed version. In addition to the digital version, patrons can chose not to print a receipt at all.

How does this work?

The process to check out items remains the same. When the patron is ready to finish their session (When they click “Finish & Print”), they’ll be presented with two additional options.

When processing an Ecommerce transaction, the screen will display the amount paid and same delivery options.

Your payment of \$6.00 has been approved.

How would you like to receive your payment receipt?

Finish & Print
