Hold Pickup Notice Data Library

The hold pickup notice data library defines the elements you can use to create custom print templates for hold pickup notices. These templates are created in a third-party application (such as iReport) for use in Millennium when printing hold pickup notices. See Creating Customized Print Templates for more information.

Header and Footer Elements

The following table describes each element in the hold pickup notice data library that can be added only to the header or footer of the notice, as well as the data source for each element in the Millennium system.

Element Name	Description	Data Source in Millennium
Library_Address_Line1_C	The first line of your library's address.	The **Address** element in the Branch Addresses table.
Library_Address_Line2_C	The second line of your library's address.	The **Address** element in the Branch Addresses table.
Library_Address_Line3_C	The third line of your library's address.	The **Address** element in the Branch Addresses table.
Library_Address_Line4_C	The fourth line of your library's address.	The **Address** element in the Branch Addresses table.
Message_C	Text from the Text of Circulation Notices table, as specified in the Text Pickup Notice loan rule element.	The Text of Circulation Notices table.
Print_Sequence_C	The ordinal number of this notice in the list of notices printed.	The Millennium system.
Text_Number_C	The number of the Text of Circulation Notices table entry used in the `Message_C` data library element.	The Text of Circulation Notices table.
Total_Patron_Fines_C	The total amount of all the patron's current charges.	The Millennium system.

Text Elements

The following table describes each element in the hold pickup notice data library that can be added to the body of the notice text, as well as the data source for each element in the Millennium system.

Element Name	Description	Data Source in Millennium
Item_Agency	The agency that owns the item.	The AGENCY fixed-length field in the item record.
Item_Author	The title's author.	The AUTHOR variable-length field in the bibliographic record.
Item_Barcode	The item's barcode.	The BARCODE variable-length field in the item record.
Item_Bib_Record_Id	The title's record number.	The record number fixed-length field in the bibliographic record.
Item_Call_Number	The item's call number.	The CALL # variable-

		length field in the item record.
Item_Checked_Out_Date	The date and time the item was checked out.	The OUT DATE fixed-length field in the item record.
Item_Checked_Out_Location	The terminal at which the item was checked out.	The OUT LOC fixed-length field in the item record.
Item_Code1	An item code, defined by your library.	The ICODE1 fixed-length field in the item record.
Item_Code2	An item code, defined by your library.	The ICODE2 fixed-length field in the item record.
Item_Due_Date	The item's due date.	The DUE DATE fixed-length field in the item record.
Item_Edition	The edition information.	The MARC 250 field in the bibliographic record.
Item_ID	The ordinal number of this item in the list of items in this notice.	The Millennium system.
Item_In_Location	The terminal at which the item was last checked in.	The IN LOC fixed-length field in the item record.
Item_Last_Checkin	The date the item was last checked in.	The LCHKIN fixed-length field in the item record.
Item_Location[1]	The branch location code for the item.	The LOCATION fixed-length field in the item record.
Item_Material_Type	The title's material type.	The MAT TYPE fixed-length field in the bibliographic record.
Item_Message	A code corresponding to a library-defined item message.	The IMESSAGE fixed-length field in the item record.
Item_Note	The first note (the note most recently added) in the item record.	The INT NOTE variable-length field in the item record.
Item_OPAC_Message	A message defined by your library.	The OPACMSG fixed-length field in the item record.
Item_Pickup_By_Date	The hold pickup by date, determined by the TIME TO PICKUP element of the applicable Loan Rule.	The LOANRULE fixed-length field in the item record.
Item_Pickup_Location[1]	The hold pickup location for the held item or title.	The Millennium system.
Item_Pickup_Location_Braddr1	The first line of the hold pickup location address.	The **Address** element in the Branch Addresses table.
Item_Pickup_Location_Braddr2	The second line of the hold pickup location address.	The **Address** element in the Branch Addresses table.
Item_Pickup_Location_Braddr3	The third line of the hold pickup location address.	The **Address** element in the Branch Addresses table.
Item_Publish_Date	The date the title was published.	The MARC 260 field in the bibliographic record.
Item_Publisher	Information about the publisher.	The MARC 260 field in the bibliographic record.
Item_Record_Id	The item record number.	The record number fixed-length field in the item record.

Item_Title	The item's title.	The TITLE variable-length field in the bibliographic record.
Item_Total_Checkout	The total number of times this item has been checked out.	The TOT CHKOUT fixed-length field in the item record.
Item_Type	The type of item, as defined by your library.	The I TYPE fixed-length field in the item record.
Item_Volume	The item's volume number.	The VOLUME variable-length field in the item record.
Message_Patron[1]	A message to print above the patron's name and address. The system prints this element only if the patron's P TYPE matches the type specified in the **Notices: Print text above patron name** circulation option.	The Text of Circulation Notices table.
Patron_Address_Line1[1]	The first line of the patron's address.	The ADDRESS variable-length field in the patron record (the data before the first $ delimiter).
Patron_Address_Line2[1]	The second line of the patron's address.	The ADDRESS variable-length field in the patron record (the data after the first $ delimiter).
Patron_Address_Line3[1]	The third line of the patron's address.	The ADDRESS variable-length field in the patron record (the data after the second $ delimiter).
Patron_Address_Line4[1]	The fourth line of the patron's address.	The ADDRESS variable-length field in the patron record (the data after the third $ delimiter).
Patron_Agency[1]	The agency to which the patron belongs.	The PAT AGENCY fixed-length field in the patron record.
Patron_Barcode[1]	The patron's barcode.	The P BARCODE variable-length field in the patron record.
Patron_Checked_Out_Number[1]	The total number of items the patron currently has checked out.	The CUR CHKOUT fixed-length field in the patron record.
Patron_Code1[1]	A fixed-length field in the patron record that your library can define.	The PCODE1 fixed-length field in the patron record.
Patron_Code2[1]	A fixed-length field in the patron record that your library can define.	The PCODE2 fixed-length field in the patron record.
Patron_Code3[1]	A fixed-length field in the patron record that your library can define.	The PCODE3 fixed-length field in the patron record.
Patron_Code4[1]	A fixed-length field in the patron record that your library can define.	The PCODE4 fixed-length field in the patron record.
Patron_Home_Library[1]	The patron's home library.	The HOME LIBR fixed-length field in the patron record.
Patron_Message[1]	A message for the patron.	The MESSAGE variable-length field in the patron record.
Patron_Name[1]	The patron's name, printed as **last name**, **first name**.	The PATRN NAME variable-

		length field in the patron record.
Patron_Phone_Number[1]	The patron's primary telephone number.	The TELEPHONE variable-length field in the patron record.
Patron_Phone2_Number[1]	An alternate telephone number for the patron.	The TELEPHONE2 variable-length field in the patron record.
Patron_Record_ID[1]	The patron's record number.	The record number fixed-length field in the patron record.
Patron_Type[1]	The Patron Type code associated with the patron.	The P TYPE fixed-length field in the patron record.

[1]You can use this element as is in the notice text, or you can use the corresponding header/footer element (appended with a "_C") in the notice header or footer. Following is the complete list of elements that can be used in the notice text, header, and footer:

Text Element Name	Corresponding Header or Footer Element Name
Item_Location	Item_Location_C
Item_Pickup_Location	Item_Pickup_Location_C
Message_Patron	Message_Patron_C
Patron_Address_Line1	Patron_Address_Line1_C
Patron_Address_Line2	Patron_Address_Line2_C
Patron_Address_Line3	Patron_Address_Line3_C
Patron_Address_Line4	Patron_Address_Line4_C
Patron_Agency	Patron_Agency_C
Patron_Barcode	Patron_Barcode_C
Patron_Checked_Out_Number	Patron_Checked_Out_Number_C
Patron_Code1	Patron_Code1_C
Patron_Code2	Patron_Code2_C
Patron_Code3	Patron_Code3_C
Patron_Code4	Patron_Code4_C
Patron_Home_Library	Patron_Home_Library_C
Patron_Message	Patron_Message_C
Patron_Name	Patron_Name_C
Patron_Phone_Number	Patron_Phone_Number_C
Patron_Phone2_Number	Patron_Phone2_Number_C
Patron_Record_ID	Patron_Record_ID_C
Patron_Type	Patron_Type_C
